

HydraPaks

New for 2011!

HydraPaks

RGC HydraPaks are powerful, portable hydraulic power supplies that operate more efficiently and with less noise than other types of power systems. HydraPaks are easily transported to the job site in the back of a pick up truck or van.

Consider the versatile new HH1358C, HV1658C and VH1858C Bi-Directional HydraPaks to power your anchoring equipment or the electric HE1512 for indoor use.

Use the new HV185510 to simultaneously run two tools that require 5 gpm flow or one tool needing 10 gpm.

Features & Benefits

- Compact, lightweight hydraulic power source for RGC and other hydraulic tools.
- Cart-mounted with large 16 in. pneumatic tires for easy transporting.
- Low noise level. Much quieter than an air compressor.
- Easy maintenance and parts replacement.
- Electric start and low oil shutdown on most models.
- Controls easily accessible for safety and comfort.
- Powder-coated tubular steel frame protects unit from damage.
- Detachable handles for easy transporting and storage.
- Lifting eye and 6 gallon oil reservoir.
- Heavy duty 8-tube heat exchanger on most models.
- HV185510 and HV1858C are equipped with an 18 hp B & S Vanguard gas engine with Performance Control™ electronic governor.
- The HE1512 uses a 3 phase, 15 hp electric motor that requires 208-230V and 30A of power.
- Contact RGC about HydraPaks for special applications.
