

HydraPumps

HydraPumps

RGC's hydraulic submersible pumps are lightweight and portable, providing the best performance-to-weight ratio in the industry. Their powerful hydraulic motors are self-lubricating, utilizing hydraulic fluid to ensure continuous, reliable lubrication. They do not require water for cooling and can be run dry.

Designed to consistently pump large volumes of liquids, these compact units are ideal for pumping out vaults, trenches, ditches, ponds, tanks, pools, etc. They are a favorite in the agricultural, construction, mining, public works, utilities and transportation industries.

Features & Benefits

- Totally submersible.
- Self-priming and self-lubricating design.
- Cast aluminum pump body with extra long handle on the PW200.
- PT300 has an aluminum top with urethane bowl and impeller.
- Built-in lifting eye/handle provides a method to carry, lift and lower the PT300.
- Proven, durable design for years of use.
- Convenient small overall size for use in tight spaces.

Specifications

| Model | PW200 | PT300 |
|---------------------------|-----------------------------------|------------------------------------|
| Pump Capacity | 275 gpm (1041 lpm) | 450 gpm (1703 lpm) |
| Pressure | 1200 - 2000 psi (83 - 138 bar) | 1500 - 2000 psi (105 - 138 bar) |
| Flow | 5 - 8 gpm (19 - 30 lpm) | 6 - 10 gpm (23 - 38 lpm) |
| Operation | Open or Closed Center | Open Center |
| Lift (Max.) | 160 ft. (49 m) | 100 ft. (30 m) |
| Discharge Outlet | 2 in. (5.8 cm) NPT (f) | 3 in. (7.6 cm) Camlock |
| Pump Diameter | 9.5 in. (24 cm) | 16 in. (38 cm) |
| Semi-solids (Max.) | — | 3 in. (7.6 cm) |
| Couplings | 1/2 in. HTMA Flush-Face | 1/2 in. HTMA Flush-Face |
| Weight | 15 lbs (6.8 kg) | 30 lbs (13.6 kg) |
